IBM DB2 On Cloud :

The screenshot shows the IBM Cloud dashboard for a resource named 'Db2-4y'. The resource is in an 'Active' state. The left sidebar shows the 'Manage' section with options for 'Getting started', 'Service credentials', and 'Connections'. The main content area displays a 'Getting started' guide with the following text:

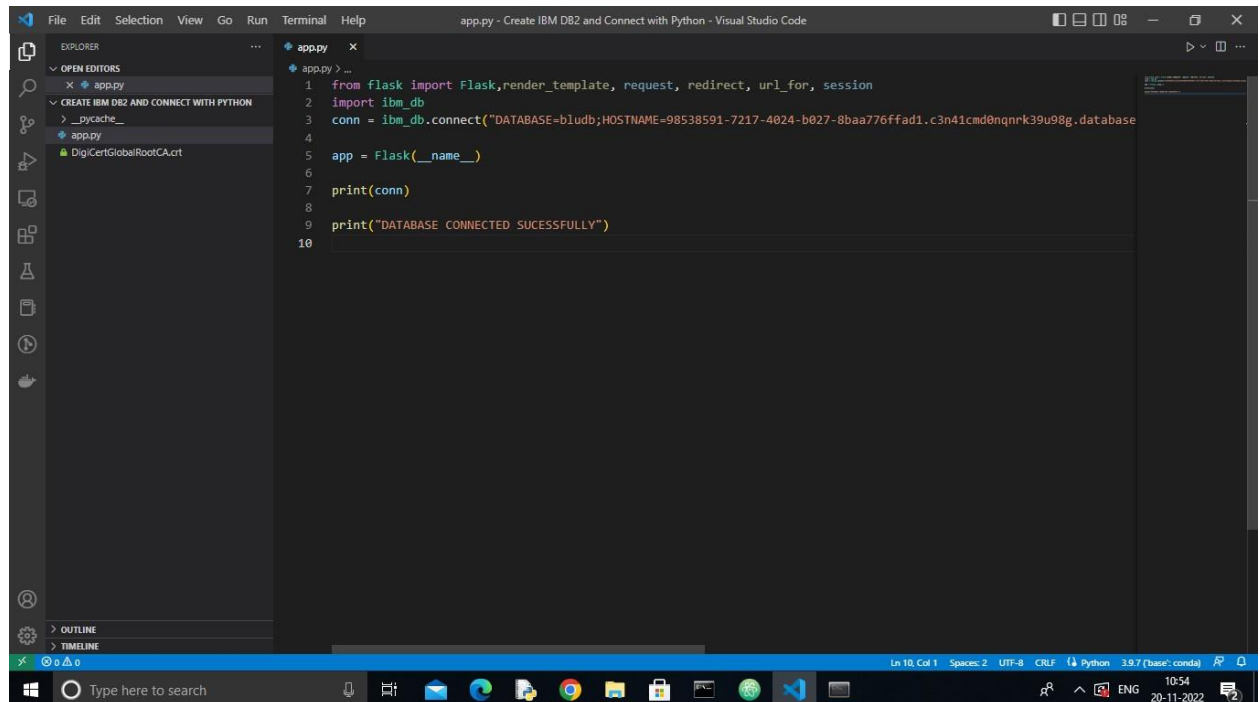

Where can I find my credentials?
Get your username and password by clicking the "Service Credentials" link to the left and selecting "New Credentials".
Don't see this menu on the left? Click on "Manage in IBM Cloud" to open the IBM Cloud dashboard.

At the bottom of the guide, there are two buttons: 'Go to UI' and 'Getting started docs'. The bottom of the screen shows the Windows taskbar with the search bar and various application icons.

Table Created Successfully :

Database connection Code :
